

A photograph of two young women in blue tracksuits performing a handstand in a gymnasium. One woman is lying on her back on a wooden floor, supporting the other woman who is balanced on her hands. The woman being supported is in a handstand position with her legs raised and arms extended. The background is a brick wall.

Boston Spa School

A path to the future for all

“

This is a school which in the last few years has seen results shoot up. It has done so because it has done things other schools around the country are now copying. Local parents are proud of the achievements of this school.

Rt. Hon Ed Balls, MP

”

A community of learners

Young people at Boston Spa School are part of a vibrant, high-achieving learning community, with a tradition and reputation for academic performance that is confirmed by our most recent examination results.

We are committed to giving our young people a love of learning and the skills to take that learning into their adult life. We go the extra mile to ensure all our young people achieve their full potential.

An innovative curriculum is tailored to meet and nurture our young people's interests and abilities. Additional support is given to those who need it. When appropriate the opportunity to take academic qualifications early in their school career is available.

Our young people are encouraged to have pride in themselves, their success, and their membership of our school community.

Our specialist facilities are second to none. Our Science Block has been used as a model for other Building Schools for the Future projects, and there are few schools in the area with comparable sporting facilities.

A community of leaders

As well as achieving academic success, and enabling our young people to become confident and independent learners, we equip our students with the skills they need to be great leaders.

Leadership opportunities exist in every Key Stage across the curriculum.

These include: leading roles in the classroom; supporting younger students as 'reading buddies'; involvement in 'Student Voice'; interviewing prospective teaching staff; expressing their views to the Governing Body; the School Nutrition Action Group, 'The Munch Bunch'; 'Go Green Group'; the Teaching and Learning Group, 'Moving Forward'; Investor in Pupils; Sporting Leadership Awards; Language Leadership Awards and a range of Business Enterprise opportunities.

Our commitment to leadership provides young people with the opportunity to gain the confidence and skills they need to progress in school and beyond as they take their place in the wider national and international community.

“The specialism makes a strong contribution to the quality of education provided by the school by successfully promoting active and responsible lifestyles and developing opportunities for student leadership.”

“*Students take part in a rich and varied programme of enrichment activities, including a wealth of sport, music, drama, educational and teambuilding trips... The wide range of academic and enrichment opportunities has a good effect on students’ enjoyment of school.*”

Enjoying & achieving

We have a strong record of rising academic standards and achievement. The foundation of this success is the quality of our care for our young people.

We are committed to the development of the whole person, the cultural, spiritual, physical, emotional, aesthetic and intellectual. We offer a broad range of curricular and extra-curricular opportunities for all our young people, including Art, Drama, Music and Sport.

As a nationally recognised International School, we are expanding the opportunities for young people to engage with their counterparts across the world. As well as maintaining our long-standing links with France, Germany and Spain, we are also working with schools in Poland, Romania, South Africa, Sweden, South Korea and Bangladesh.

Healthy & safe

Students' personal development is good overall and they are very clear about how to stay healthy. Large numbers take part in a varied range of health-promoting activities, which offer something for everyone. The school provides a secure and caring environment where students are confident and able to develop good skills and qualities.
