Dear Parent /Carer,

Your daughter or son has now completed the first half term in Year 7 and today they will bring home from school their Progress Report. On this you will see which Step your child is currently working at as well as their current effort score.

STEPS

Steps have replaced levels, and Mrs Westerman wrote to you explaining this on the [9th September](#).

EFFORT SCORES

This year we have a new way of reporting on effort, and a description of what these different scores mean has been included at the bottom of the progress report.

TARGETS

End of Year targets will be set shortly for students in Year 7. They will have a Step target for the end of the Year which is set at a high level. Students will be given a Maths target, an English target and a generic target for all other subjects.

THE NEXT PROGRESS REPORT

We will report to you again on your child's progress at the end of next half term and these reports will be sent home to parents on 9th December.

FURTHER SUPPORT

It is a while before the Year 7 subject consultation evening on Monday 20th February, so If you have any questions about the Step or effort score that your child has received please contact me on 01937 846607 and I will be able to arrange for the appropriate teacher to contact you.

Yours Faithfully

Sarah Brennan
Progress and Guidance Leader for KS3
